# WE NEED \$237,615 TO SERVE GREATER LOWELL IN 1950!

Because **HEALTH**

*is so important—*

Because the **FAMILY**

*is so important—*

Because **CHILDREN**

*are so important—*

Because a **HELPING HAND**

*is so important—*

Through our Community Chest we support one of the best health services in this state. But health costs money—a dime out of every Community Chest dollar. Let us tell people what we are doing (in simple terms like this) and how much it takes in terms of money. Where can anyone find a better bargain than health?

We give our Community Chest the money which is needed to keep the family running as it should. Thirty-two cents out of each dollar given to the Chest is spent by our two valuable services which help families and the individual members of families. This is a work which we support because it is vital to all of us!

Every dollar handed over or pledged to the Community Chest means forty-eight cents for the work of building the good citizens of tomorrow. We have nine separate services to do this work—and it is being well done. Let us recall those countries where the children have been victims of evil teachings. This must not happen here!

Our Community Chest provides help in many different ways. The blind know it, the halt and handicapped, the wronged and the fearful, the timid new citizen. A dime out of every dollar given to the Chest is devoted to this work of special help. And with that, the dollar is used up and the Community Chest story is told.
